

Technical requirements

Audio equipment:

Mixing Console:

- Model: A&H SQ 5 (NO Midas M32 or Behringer X32)
- !!SQ5 is the Master Output not the DJ Booth. SQ5 must have full control over all outputs!!

CDJs and Mixer:

- 2 x Pioneer CDJ 3000
- 1 x Pioneer DJM A9 mixer
- All equipment linked through an 8-port/1-gigabit network switch with Cat5e/Cat6 cables
- 2x available power sockets
- DJ Booth

In-Ear Monitoring:

- 5 x Sennheiser EW IEM G4 (With Engineer Model)
- Connection: All connected to a combiner (Sennheiser AC 41 or AC 3200-II)
- 1x Antenna on stand At least 1x 10m 50Ohm antenna cable

Wireless Handheld Microphones & Wireless Bodypacks:

- 3 x Sennheiser EW-D 845 (handheld with MM845 head)
- 1 x Sennheiser EW-D SK (bodypack with mini-jack)
- Connection: All connected to an antenna splitter (Sennheiser ASA 1)
- 2 antennas on separate stand or RF Venue Diversity antenna. No 1/2 or 1/4 antennas
- At least 2x 10m 50Ohm antenna cable

Power:

Batteries:

- Quantity: 20 x AA batteries (new)
- (In case of RECHARGEABLE batteries. All charged at arrival. Provide charger for at least 10 batteries)

Special Request:

Instrument:

- 1 x Djembe (not a joke ☺)

Important Notes:

- All equipment should be set up and tested well in advance of the event.
 - Frequencies should be checked with Shure Workbench or Sennheiser WSM.
 - Ensure compatibility and functionality of all interconnected devices.
 - Djembe must be present at the venue before the show.
- The organization is responsible for applying licenses in the permitted frequency bands of the wireless equipment (if applicable).
- Technician with access and control over FOH system

Please provide a quote for the specified equipment and confirm availability for the given date. If there are any alternative recommendations or adjustments needed, kindly communicate them along with the quote.

Thank you for your prompt attention to this matter.
Sincerely,

We're happy to help or to answer you.
